Selsius™ Offers Free Seminar for Area Businesses

Have you considered upgrading to Microsoft Office 2007, but you aren't sure it's right for your company? Selsius™ Corporate and Career Training is offering a free seminar Tuesday, May 13 to help you decide. The seminar is offered twice, 10 a.m. to noon, and 1-3 p.m. at the Southwestern Illinois College Belleville Campus.

Join other local business professionals during one of the sessions to find out:

- How Office 2007 is different from previous versions?
- What the new features are.
- How it can increase productivity
- If Office 2007 right for your company.

The hands-on demonstration seminar will provide an overview of the unique differences between Office 2007 and previous versions of the Microsoft Office suite to help you better understand its business capabilities. The focus is different from a "skills development" seminar for specific applications. If you have specific skill development needs, please go to www.selsiustraining.com for information about training opportunities in a variety of software applications.

Seating is limited. To reserve a space, call 618-222-5688.
